To: Australia Council for the Arts

Dear Australia Council for the Arts,

We confirm collaboration to support Kirsty Boyle and her robot art project with the Tibetan community, specifically Norbulingka Institute in Dharamsala, India.

This project is of great interest to us and we greatly look forward to seeing it come to life.

We offer our new humanoid robot UXA-90 for reduced wholesale price U\$18,000/unit.

We also invite her to our head office and research lab in Seoul, South Korea and will help her develop any technical aspects she might need assistance with.

Yours sincerely,

A handwritten signature in black ink, appearing to read "John Cho".
